

NEED A DYNAMIC YOUTH SPEAKER?

Right to Life of Central California Multimedia Presentations

RLCC brings information, statistics, stories, analogies, and inspiration home like never before with 10 high-impact youth-directed presentations that can be done individually or mixed and matched however you please. Each is a full multimedia event *presented for youth, designed by their peers*. They include:

- **The Devil's Advocate** What would Jesus say to a pro-choicer? Have our pro-life speaker come in to your group pretending to be a pro-choice advocate! Watch him use the best arguments the pro-choice side has to offer, debating your group to see what they have to say back. Are they ready to defend their views in a 1 Peter 3:15 kind of way? It's time to find out! Halfway through the presentation, you'll stand up and explain to the audience that this is actually a pro-life advocate, and then we'll coach your group on how to properly respond to people they disagree with. Your group won't forget this!
- **Making Abortion Unthinkable** Whether you are new to the pro-life world, or if you're an expert on the issue of abortion, you are sure to learn something in this presentation that is designed to challenge, educate and equip you on the abortion issue. Learn how to defend the pro-life position with air-tight scientific and philosophic arguments.
- **Chastity 101** Astounding information about current trends in U.S. teenage sexuality, STD's and the vital importance of chastity while drawing analogies from intense clips from movies like, *The Matrix* as well as hilarious scenes from favorite teen movies. Emphasis is placed on the need to *train* if we want to win the battle for chastity.
- **Stem Cell Research: What the Media is Leaving Out** As pro-lifers we need to understand stem cell research for the same reason we need to understand abortion: both wrongfully take the lives of innocent human beings. Do your teens understand it? How is stem cell research done? What are the differences between embryonic and adult stem cell research? What are the moral implications? These questions and more are answered in this presentation.
- **Human Cloning: Truth vs. Science Fiction** Is human cloning already going on? Why would people advocate cloning? What are the biblical ramifications of this practice? These questions and more are answered in this presentation that utilizes popular science fiction movies like *The Island*, *Gattaca* and *Jurassic Park*.
- **And More!**

What Others Are Saying...

"I was **pro-choice** before Sunday, because I was completely ignorant. I had no clue how abortions happened, no clue about statistics, no clue about anything really. I feel stupid for having such an uneducated opinion before, but I'm glad that's changed. **I'm definitely pro-life now.**"

- Rachel, Student, after seeing *Making Abortion Unthinkable*

"I have to say that Josh has done an **amazing job** framing the abortion issue, and I **don't see how the pro-choice side could ever win a debate against anyone using his arguments**. After seeing what abortion is, and hearing the **scientific** and **philosophic** arguments, **what can the pro-choice side say to disprove it?**"
